

IXD803: DESIGN OF USER INTERFACE AND EXPERIENCE

CA1: Empathize & Define

Objective:

Understand a real-world problem through user research and define a clear design challenge.

Brief:

Choose a real-world problem such as homesickness, colour blindness, shifting to a new city, digital addiction, campus navigation, financial management, healthcare accessibility, or any other socially relevant issue. Conduct primary and secondary research using interviews, surveys, observations, and literature review to understand user needs. Analyse the collected data to identify pain points and define the target users, demographics, user journey, and a well-structured problem statement.

Submission Guidelines

Submit **all assignments in PDF format only.**

Name your file using the following format:

YourName_RegistrationNumber.pdf

Example: Rishi_1000020838.pdf

Note:

- All design work must be created in **Figma**.
- Students will work on **one problem statement throughout the semester**.
- Each continuous assessment builds upon the previous one and contributes to a single comprehensive UX case study.
